

WOLVERINE RANGERS' EPITAPH

Volume 14, Issue 3

June 2011

★ CAPTAIN'S CORNER ★

Howdy Pard,

The results of the election of the Board members for the Wolverine Rangers are posted on the website. I would like to welcome new At Large Board member Ketchum Quick from Rockford. I am sure that Ketchum Quick will make a great addition to our Board. All incumbents were reelected.

June is here and the shooting season is in full swing. Be sure to try to get to as many shoots at our member clubs that you are able to this spring and summer. We have some great Cowboy Action Shooting clubs in Michigan and more importantly some great people involved with them. Michigan is a beautiful state and there is no better way to enjoy it than by taking a nice drive and spending the day shooting with people you enjoy hanging out with.

Korupt Karl from Indiana and his friend Curt Ebersole will be putting on a CPL (concealed pistol license) class at the Gillary Farm in Columbiaville on Saturday July 16th. Please see the information and registration form on the Wolverine Rangers website at www.wolverinerangers.org. The cost is \$100 per person payable to Edge Training Group and the class will run from 9:00 am until 5:00 pm. There are limited spaces available so if you are interested, I would recommend that you sign up early. Passage of the class will entitle you to go to your local police department to apply for a CPL.

Range War plans are being finalized. We will be having a Cowboy Mini-Match and Wild Bunch Mini-Match on Friday morning from 9:00 a.m. – 12:00 p.m. Both Mini-Matches will run at the same time so you will not be able to shoot both. Side matches will take place on Friday. Long range events are from 10:00 a.m. – 1:00 p.m. and speed events are from 12:00 p.m. – 4:00 p.m. The applications are on the website and are available for downloading. You have

also hopefully received one through the mail or by email. Please be sure and get your application sent in. Michigan has the reputation of having one of the best SASS State Championships. We expect a good turnout and a fun time for everyone.

We have printed a passel of Wolverine Rangers Flyers/Brochures to promote the Wolverine Rangers and our member clubs. Feel free to contact Cosmopolitan Christine by email @ egillary@gillarylaw.com or by phone at our office at 248-528-0440. Email probably works better because she will probably have delivered Jacob Randall Kucinich (J) by the time you read this and she will likely have her hands full.

High Chin Bob is now on board as Marketing Director. Please feel free to contact him at HighChinBob@wowway.com if you have any questions or would like to provide suggestions for marketing the Wolverine Rangers and Cowboy Action Shooting in Michigan.

For anyone planning on heading to Winter Range next February, the dates have been changed. The new dates for Winter Range will be February 20th thru February 26th, 2012.

Well, that is about it for now. Please feel free to contact me or any of the officers of the Rangers if you have any questions. We have an open door policy and our books are always open to our members.

Please pray for our soldiers and veterans who protect our freedom.

Best regards,

R.J. Law

R.J. Law – Captain
Wolverine Rangers

★ SHOOTING NEWS ★

ROCKY RIVER REGULATORS

On April 17, 2011 the town of Rocky River was ready to welcome the cowboys and cowgirls to the first spring time match for 2011. We were shocked by Mother Nature as she held onto winter for a few more days and made the match more winter like. Sixteen hearty cowboys ventured out and competed in a winter mix of low temperatures and high winds that made this feel more like a shoot in mid January then April. Once the shooting began most cowboys forgot about the temperature and the shooting action heated up the range. When the dust settled the overall match winner and top DSC shooter was J.J. Longley. J.J. was also the only clean match shooter. Other DSC shooters who finished well in the match were Nine Finger Bob, Rochester Kid, and Fraser Fox.

May 22nd was a beautiful Michigan spring day and we held a cowboy match to celebrate. Thirty nine shooters competed and when the range was quiet; Faygo Kid not only shot clean but was the match winner. The three top shooters from DSC were J.J. Longley, Dar B Shurshot, and Fraser Fox. DSC shooter Eagle Eye Mike also shot clean for the entire match. Rounding out the other clean match shooters were Cactus Kay, Dakota Doc, and Broke N' West.

On Sunday, June 5, 2011 the D.S.C. Rocky River Regulators will be holding the second of 4 monthly Wild Bunch Matches for 2011. We will be shooting the SASS classes of Traditional and Modern (Men and Women) with a 1911 handgun, .45 colt rifles, and 1897 shotguns. In addition, we will have an Open class for all other firearms (used in CAS) so that ALL can come out and have fun. These Wild Bunch Matches will be 5 stages with multiple magazine changes for maximum excitement. A casual lunch will follow each match. Look to the Wolverine

Rangers calendar for match times.

If you want some .22 firearm fun, come out on Saturday, June 18, 2011 for the .22 Woods Walk and Cowboy Shoot. The following day will be the June Cowboy Action Match on Sunday, June 19, 2011.

Remember that we practice on most Saturdays from 10 AM until 2 PM and all the cowboys are happy to answer any of your questions about Cowboy Action Shooting and Wild Bunch.

Come and enjoy some shooting fun.

See you on the Range.

J.J. Longley

RO-I CLASS CHANGE

SASS has made a change on teaching RO-I classes. Basically, if any RO II (orange pin) wants to teach an RO I class, they must have an RO II Instructor (black pin) in attendance in the class. There will be new information on this in the near future. This will give our clubs a head start on what is coming. We can be contacted, if there are questions, at docandkay@yahoo.com or 817-773-0637.

★ SHOOTING NEWS ★

STRAIGHT SHOTS FROM SAGINAW

Well, pard, I don't know about you but, Marty & I have about had enough rain. Hopefully, by the time you folks read the Epitaph, "normal" weather will have settled in. And if not, I guess we'll just cowboy-up and deal with what we get. We are just mighty thankful for not having the nasty storms that so many of our fellow Americans have endured. Our prayers go out to all throughout the country who have suffered during the storms this spring.

Saginaw's first shoot of the season will be on Saturday, June 25th. We're looking for a really fun shoot and hope all you pards can join us. Then, comin' round the bend, we'll be having our back-to-back, FREEDOM DAYS, Saturday, July 30th and Sunday, July 31st. Shoot one day or both. You have the "freedom" to choose. Scores & awards will be handed out each day. Registration is each morning, 8:30-9:30 a.m. Entry fees each day are: \$15 for Wolverine Rangers, \$18 for non-ranger and 16 & under are free. Grub is included.

We're also offering free primitive camping again this year for the FREEDOM DAYS on Friday & Saturday nights. It's a lot of fun relaxing with our pards and doing what we do best...laughing!!! Like our motto says: We have more fun than should be allowed! We would appreciate a call ahead if you do decide to camp over. 989-585-3292 or mnbell@yahoo.com If you're not on vacation somewhere else, why not come to our own little piece of "Up North" and shoot some targets with us. Then, shoot the breeze and relax with friends...and yes, maybe even join in the infamous cherry spitting contest. We'll have a potluck Saturday night if you want to attend, but it's not mandatory. Sunday mornin' we'll have a short cowboy church service to thank the Lord for all our freedoms, especially the freedoms to worship in this great country of ours and to keep and bear arms. We sure hope you can join us

for Freedom Days, be it one or both days. And if'n you don't have fun, it'll be because you jest didn't show up.

As August heats up and thoughts turn to the State Shoot, our Saturday, August 27th. shoot will feature scenarios from the upcoming State Shoot. It's a great way to familiarize yourself with the stages and get some good practice in. Plan to join us and have some shooting fun!

At all our shoots this year, we'll again be having our own "mini" Wild Bunch Match for our outlaw pards after the main match. (3 quick stages in the woods!) Cost is only \$5. Contact Ethan Callahan at j20bell@yahoo.com for specifics.

Even though May had way too many rainy days and nights, our weekly Wednesday night practices, 5:00 p.m. until dark, are providing a lot of fun. We get in at least 5 stages a night, usually more. We'd love to have you join us. Cost this year is \$3 for anyone... pretty cheap harassment, we'd say! Check us out & view some photos out on Facebook... www.facebook.com/saginawcowboys.

As Memorial Day commences and Independence Day marches forward, we hope everyone finds gratitude in their hearts for those brave men and women who understood just how important freedom is to the survival of America. Through the storms of life, may freedom prevail. May God bless us all.

Sure hope to see you at our shoots this summer. And remember... live life. Give it your best shot.

Bad River Marty & Katie Callahan

★ SHOOTING NEWS ★

HURON RIVER RAIDERS

Just want all the Cowboys & Girls to know that we will be having practices in 2011 on these dates: August 6, September 10, and October 1, from 10:00a.m. – 1:00p.m. The range fee is only \$7.00 and a large assortment of guns/calibers/ammo. will be available for kids (.22 & .410) and newbies.

We need to buildup our membership so we can again hold SASS matches, which will benefit all of us. We have the Taylors 1873 rifle in .357magnum called The Comanchero and came with the action work and short stroke done by Cody Conagher. Anyone at the practice can use it along with either 38spl. or 357 cowboy ammo.

Log on to [Multilakes.com/Activities/Cowboy Action](http://Multilakes.com/Activities/CowboyAction), and watch a YouTube pick that is outstanding.

Regards,

Cool Hand Carl

NOTE FROM THE WEBMASTER

I've taken the last couple of months to learn a new software (Adobe Dreamweaver) used to publish websites. Our old Microsoft FrontPage software was outdated and no longer supported. At this time I think I have a good enough grasp to rollout the new website and then continue to learn and update pages as needed. If the new website isn't up and running by the time the Epitaph is published, it will be soon after.

In an effort to save time I am not going to post any of the past match scores, so if you need one prior to May 21 contact the scorekeeper for that match.

Clubs representatives, 1) if you don't have any photos in the left sidebar 2) or you don't like the header picture on your club page....send me at least four .jpg photos.....full size or at least 960 px wide and I'll update your club page.

Let me know if you see any problems on the website. You can shoot me an e-mail from the "Contact Us" button on the left side of most webpages. Thanks in advance.

Laporte Lil

2010 WOLVERINE RANGERS ELECTION RESULTS

We received Election Ballots from
48 Wolverine Ranger Members

President (Captain) - R.J. Law (Incumbent)
Secretary - Cosmopolitan Christine (Incumbent)
Members-at-Large - Baldy Bill (Incumbent)
Cactus Kay (Incumbent)
Catlow (Incumbent)
Chili Pepper Pete (Incumbent)
Dakota Doc (Incumbent)
Ketchum Quick (New Member-at-Large)
Steady Eddie (Incumbent)
Three Gun Cole (Incumbent)

★ SHOOTING NEWS ★

SUCKER CREEK SADDLE & GUN CLUB

NEWS FROM OUT AT THE CREEK

I think we have all made our way back from the southern part of our beautiful Country and our bodies are adjusting to the cooler weather. Our first shoot of the year is over and it was a big success. We had 47 shooters come out and join us for a fun filled Saturday. The Town was a little wet but I don't think that dampened anyone's fun. The top 5 shooters were: Doc Noper, Lightning Wayne, Red Beard Bandit, Hair Trigger Elden and Riverview Rattler. The new restroom facilities were not completely finished but we could use them, what an improvement over portapotties.

We have probably one of the nicest, if not the nicest "outhouses" in cowboy shooting in Michigan. Our next shoot will be June 18, 2011, come on out to Sucker Creek and have yourself a good time plinkin them targets and telling a story or two of your adventures in cowboy shooting. Hope to see you all "Out at the Creek" real soon.

**The Vicar's Wife,
Secretary/Scorekeeper SCSE&GC**

FENTON BUTCHER BUTTE BUNCH

Free Shoot & Membership Meeting

Off to a wet start for regular monthly shoots! Had to cancel April but May was great. Had plenty of shooters and lots of fun. Hope to see you at our monthly match June 12th.

July 10th is the Wolverine Ranger Annual Membership Meeting and Free Shoot being held at Fenton this year. We have been working on making it a great day for all. Range work and super food

coming up. Sassy Sue has been knocking herself out with plans to make it a special day.

The Rangers are having a drawing for a \$400.00 cash award to one lucky Ranger in attendance and another drawing for an entry to the Wolverine Ranger Range War. If you haven't been to Fenton then July 10th would be a great time to get started. If you have been there, we'd love to see you again.

We are about one and one half miles north of Guns Galore and twenty minutes south of Flint. Remember to send in your registration form by July 1, but the sooner the better. The registration form is on the Ranger web page and in this issue of the Epitaph. The Butcher Butte Bunch looks forward to seeing you in Fenton!

Cactus Kay

★ SHOOTING TIPS ★

Howdy again pards,

In this installment I'll go over the BIG FOUR things that have a huge affect on whether or not you can hit that teeny little target that's waaaaay out there. Bear in mind that just KNOWING about this stuff doesn't cut the mustard, you have to APPLY what you know to become a good long range shot.

FIRST: You have to recognize your capability and your weak points, especially your weak points. If you work on your weak points your capability improves! My advice to you is to seek out people who are better shots than you. Way better shots. They got good because they mastered the fine points by asking questions, listened to good advice, observed good shooting technique, and applied what they learned. NOBODY was born a good shot! Sight picture, breath hold trigger squeeze, front sight insert shape and size, rear sight diopter size, sight adjustment, hand position, body position, grip, recoil management etc. etc. are only a few of the things that are all intertwined and affect your ability to shoot well. If you don't have anybody to point out your weaknesses, you'll just figure that you are doing everything right [and aren't.]

SECOND: You have to improve the capability of your rifle. How well does your rifle shoot? Assuming that you have everything in the first part mastered, now you can work on reducing the size of the groups your rifle [and you] shoot. Your goal is to find your RIFLE'S capability. Powder type and amount, bullet weight and shape, primer type, full length case sizing vs. neck sizing, and shooting technique from the bench all play an important role in reducing group size. How big should your groups be? How does 10 shots in 3 inches at 100 yards and 10 shots in 6 inches at 200 yards sound? That right bub. I'll bet most of you have some work to do. NEVER BE SATISFIED WITH MEDIOCRITY! Almost all rifles can be "persuaded" to shoot smaller groups with a little experimentation. If you think you have reached that point with your rifle, let a better shot than you shoot a group to confirm it. If he shoots a better group than you, you need to re-read part one of this article. You need more work on YOUR capability to shoot!

THIRD: Now that you are an expert shot with your rifle that shoots teeny weeny groups, it's time to

think about what effects mother nature can have on your shooting. I'm sure that you have seen mirage before but did you know how much it can affect your shooting? What is mirage and what causes it? Mirage is seen when light from the target [the image of the target] passes through air of different densities. Sunlight hitting the ground causes the warmed air on the ground to rise. As it rises, the light from the target is REFRACTED as it passes through air of different temperature. The image of the target looks like it "ripples" or is "wavy". The image will move with the breeze or "boil" if the air is calm or moving directly at you or away from you with a head wind or tail wind. Mirage is much more evident if you are laying on the ground looking through a spotting scope. The difficult thing about shooting in mirage is that the IMAGE of the target moves NOT THE ACTUAL TARGET! You are aiming at a fuzzy, wavy, rippling image of the target when in fact, the target is several feet to the right, left or lower than the image you are aiming at. The real target isn't behind the image. Obviously, the direction in which the mirage is running is directly related to the direction that the wind is coming from. You can actually use the mirage to judge wind speed up to about 12 miles per hour. The mirage "flattens out" past that. When shooting mid or long range, shooting in the same mirage "condition" and watching for it through a spotting scope is VERY important if you want to do well.

FOURTH: Learning to read the wind and mirage is an acquired talent. You can read about it. You can understand it. But to learn it, YOU HAVE TO DO IT. When you describe the wind direction, use the clock face as your guide. The direction you are shooting is always toward 12 O'clock. That way if someone says that the wind is from 9 O'clock you will know exactly what they are talking about. What will the wind do to your bullet? A 12:00 headwind will offer more resistance to the bullet causing it to impact lower than normal. A 6:00 tailwind will offer less wind resistance to the bullet, causing it to impact higher than normal. Tailwinds DO NOT "lift" a bullet. Winds from 3:00 or 9:00 are called "full value" winds and will cause the bullet to deflect [drift] to the right or left. The amount of deflection depends on the wind velocity. Wind from 2:30, 4:30, 7:30, and 10:30 are called half value

★ SHOOTING NEWS ★

winds and will cause the bullet to deflect approximately HALF as much as wind from 3:00 or 9:00. Now, remember this! The amount of drift and the amount to adjust your sights is ALWAYS expressed in MINUTES. If you don't understand that yet, get an experienced shooter to teach you how to adjust your vernier tang sights by the minute. It's easy. Just do it. Distance wise, a minute of angle amounts to about 1 inch at 100 yards, 2 inches at 200 yards, 3 inches at 300, 6 inches at 600, 9 inches at 900 etc. You get the idea. A full value wind [remember, 3 or 9 o'clock] at 800 yards will deflect a 500 grain bullet doing about 1300 feet per second, a full minute [8 inches] for EACH mile per hour of wind velocity. I.E. a 12 mile an hour wind will drift a bullet 12 minutes or about 96 inches. That's 8 FEET bub! Simply put, at 800 yards you fire at your 6x6 foot square target and score a bullseye on the target next to you! It gets worse at 900 and 1000 yards.

To start learning how to read the wind, always be aware of what is going on around you. Feel the wind velocity and direction on your face, watch the trees, tall grass, wind flags if any, and, oh yeah, listen to the weather man. You should start paying attention if you plan on shooting past 100 yards.

Well buckos, hope you learned something. I sure would like to see some of you try silhouette or mid-range this year. It's time you started running with the big dogs. For info on B.P.C. silhouette, Mid or Long Range, contact EL GUANO at spidercontrolinc@aol.com.

'till then keep'em in the black!

EL GUANO
